CLEANING MACHINES

La nostre spazzolatrici sono efficienti gruppi di pulizia che possono essere applicati facilmente a qualsiasi tipo di macchina. Due spazzole o più spazzole, agiscono contemporaneamente sul dritto e sul rovescio del tessuto in modo da assicurarne la massima efficienza. Le spazzole possono avere setole diverse in funzione del tipo di tessuto da trattare. Le ridotte dimensioni le rendono poco ingombranti e quindi adatte ad ogni tipo di applicazione. L'aspirazione esterna è composta da un elettro-ventilatore, collegato con tubazioni flessibili alle maniche filtro o ad altro sistema richiesto o già esistente.

**SPAZZOLATRICE DI PULIZIA
BRUSH COMPACT**

**BRUSHING
CLEANING MACHINE
BRUSH COMPACT**

Our brushing/cleaning machines are efficient cleaning groups, easily applicable to any machine, where it is request.

Two or more brushes are working at the same time on the front and on the back

of the fabric to assure the maximum efficiency.

The type of brushes depend from the kind of fabric processed.

The small dimension let it to be suitable for different applications.

The esternal suction is made up of an electric fan connected through flexible pipe to the filter units or to other existing system.

Diametro spazzola Brush diameter	200mm
Potenza motore spazzola Brush motor power	0,37 Kw — 1,1Kw
N° di spazzole N° of brushes	2 - 4
Peso Weight	360 — 920 Kg
Altezza di lavoro Working width	2000mm to 3600mm
Voltaggio Voltage	380 V - 50Hz
Velocità spazzole Brush Rpm	300 rpm

Member of :

Production range :

- **SUEDING MACHINES**
 FOR WOVEN AND KNITTED FABRICS (up to 3400 mm w.width)
 WITH ROLLERS IN CARBON COMPOSITE FIBER (up to 3400 mm w.width)
 WITH ABRASIVE BRUSHES (up to 3400 mm w.width)
 WITH ONE ROLLER (PATTERN SUEDING)
 FOR DRY OR WET PROCESS
- **CLEANING MACHINES**
 FOR ALL TYPE OF FABRICS
 (With air-blades-brush system OR With double suction hoods)
- **CORDUROY CUTTING MACHINES**
- **GRINDING MACHINES FOR CORDUROY CUTTING KNIVES**
- **VELVET AND CORDUROY FINISHING MACHINES**
 BRUSHING MACHINES FOR DRY AND WET PROCESS
 WAXING-GLAZING MACHINES
 ROLLING/UNROLLING MACHINES
 PADDING MANGLES
- **WET BRUSHING MACHINES**
- **RAISING MACHINES**
 FOR WOVEN AND KNITTING FABRICS
 WITH ONE OR TWO DRUMS
- **SHEARING MACHINE**
- **NON-STOP CONVEYOR BELTS**
- **STEAMERS AND DRYERS**
