(THE COMMITMENTS, RODDY DOYLE, 1987)

THE ARTCERAM É UN MARCHIO
IN CONTINUA EVOLUZIONE: PRODOTTI
ORIGINALI, FRESCHI E AMBIZIOSI,
UNITI DA SPIRITO DI INNOVAZIONE,
E CURATI DA GIOVANI DESIGNERS,
CON QUEL “THE” IN PIÙ.

THE.ARTCERAM

THE ARTCERAM IS AN EVER-EVOLVING
TRADEMARK: ORIGINAL PRODUCTS,
FRESH AND AMBITIOUS,
UNITED BY THE SPIRIT OF INNOVATION
AND DEVELOPED BY YOUNG DESIGNERS
WITH THAT PARTICULAR “THE”.

La casa come passione, la qualità come vocazione; due punti fermi che dal 1987 segnano il percorso di Artceram, azienda di Civita Castellana, distretto ceramico per eccellenza.

È in questo contesto che Valentino Brunelli ha iniziato a produrre.

Con l'avvento del nuovo millennio l'Azienda ha individuato nell'equilibrio fra design, funzione, innovazione e valori, la leva strategica di sviluppo e di affermazione del proprio brand, in Italia e nel mondo. In un panorama completamente diverso - come diversa è la cultura dell'abitare - Artceram, guidata da Alberto Brunelli, si afferma oggi come icona contemporanea produttrice di cultura.

LE ORIGINI

Passionate about homes and quality by vocation: two key features that have marked Artceram's path as a company in the pre-eminent ceramic district of Civita Castellana since 1987.

This was the context where Valentino Brunelli began his activity.

But with the dawn of the 2000's the Artceram identified its strategic growth impulse and success of its brand in Italy and worldwide thanks to the perfect harmony between design, practicality and innovation and values. Today, in a completely different perspective on life and home concept, Artceram - leaded by Mr Alberto Brunelli - has achieved success as a contemporary iconic company that produces culture.

Cultura imprenditoriale basata sul made in Italy, responsabilità sociale, attenzione ai dettagli, cura delle relazioni con la pluralità dei suoi interlocutori sono i valori che Artceram pone al centro della sua strategia di produzione e di crescita.

Dalla ridefinizione delle linee di produzione a quella degli orari di lavoro, modificati per una migliore qualità di vita dei lavoratori, fino all'utilizzo di nanotecnologie e materie prime purissime per il risparmio idrico, tutto converge alla realizzazione di prodotti portatori di qualità. Prodotti che comprendono bellezza e ricerca tecnologica, design e cura delle lavorazioni manuali, capaci di dettare mode e tendenze.

UNA STORIA DI INNOVAZIONE

Business mentality based on a “made in Italy” concept, social responsibility, care of details and respect for relationships with its interlocutors: these are the fundamental values of Artceram’s production strategy and growth policy.

Enhanced production lines, revised working hours to improve workers’ quality of life, use of nanotechnology and water-saving raw materials that are extremely pure are the factors that lead to the making of high-quality products. Elegance and technological research, design and respect for manual work characterize Artceram trend-making products.

IN UN CONTESTO SPERIMENTALE,
SI COLLOCA THE.ARTCERAM VILLAGE,
CHE RACCONTA IL “MONDO” ARTCERAM
PROMUOVENDO ARTE E TERRITORIO,
IN MODO CREATIVO E RIGOROSO,
A TRATTI PERFINO DISSACRATORIO.

ESTRO E FILOSOFIA

THE.ARTCERAM VILLAGE IS PLACED
IN AN EXPERIMENTAL CONTEXT
AND DEPICTS THE “ARTCERAM’S WORLD”
BY CREATIVELY AND RIGOROUSLY
PROMOTING ARTISTRY AND TERRITORY
EVEN IN A DESECRATING WAY.

the.bunker

Artceram crede fortemente che l'impresa oggi abbia nuove responsabilità sociali, nei confronti del territorio e della comunità.

La comunicazione unidirezionale non basta più e l'azienda vuole avere una relazione diretta ed empatica con chi entra in contatto con il suo mondo. Per questo, The.Artceram Village, nuova forma di mecenatismo contemporaneo e internazionale dal carattere fortemente umanistico, è come una vera e propria "casa" per coloro che si riconoscono nei suoi valori e nella sua identità. In quest'ottica, attraverso The.Artceram Village, l'azienda organizza e promuove attività ed eventi, contribuendo a creare cultura e a sviluppare un legame sempre più forte con il brand.

THE.ARTCERAM VILLAGE

Artceram believes that a modern-day company needs to have social responsibility towards the territory and communities. One-way communications don't work anymore so the main goal of this company is to create direct and empathic relationships with anyone that gets into its world. That's why The.Artceram Village – a re-shaped contemporary, international patronage with a strong liberal flavour – is like a "home" for those who identify themselves in its values and particular character. Through The.Artceram Village we organize events and activities so contributing to create culture and continuously strengthen people's passion for the brand.

The.Church

In uno spazio di oltre 550mq,
lo showroom Artceram è ricavato
da un'antica chiesa di Frati
Cappuccini del 1577.

Un luogo suggestivo nato
da una visione aziendale curiosa
e intraprendente che nella
valorizzazione del territorio
e della sua cultura individua la carta
vincente per portare
il suo Made in Italy nel mondo.

The 550 square meter showroom
located inside an old Church built
in 1577 by the Order of Friars Minor
Capuchin is a fascinating place
conceived by a curious and ingenious
company mission that makes
of the enhancement of territory
and culture its key to success
in exporting the "Made in Italy"
concept worldwide.

The.Bunker

Dal total white al total black.
 Dopo il bianco abbagliante
 della chiesa, gli spazi espositivi
 dell'azienda raddoppiano con il nuovo
 Bunker in nero assoluto.
 Uno spazio emozionante di 500mq
 che si lega al precedente in un percorso
 suggestivo in grado di accogliere
 e raccontare prodotti e storie.

From total white to total black.
In addition to the shining whiteness
of the church, the showroom area
of Artceram has doubled
with the creation of the Bunker
in total black. A 500 square meter
exciting place emotionally linked
to the other showroom by a charming
itinerary that contains products
and tells stories.

The.Garden

Il bianco immacolato della facciata della chiesa si affaccia sul verde del prato, dove elementi iconici black&white e silhouettes femminili in metallo si ergono come totem metropolitani contribuendo a creare l'atmosfera accogliente di questa fabbrica dal volto umano.

The immaculate whiteness of the church façade overlooks the greenness of the grass where iconic elements in black&white and the women silhouettes soar like city totems and contribute to the warming atmosphere of this company with a human touch.

The.Loft

Nel segno del recupero di ogni ricchezza presente, The.Loft, uno spazioso e luminoso ufficio, quasi una serra incastonata nel giardino, frutto della trasformazione di una ex officina di pneumatici, diventata ambiente gradevole e funzionale, che di notte si illumina, brillando come un vero e proprio gioiello sul giardino.

The.Loft – a sign of wealth restoration – is a roomy and bright office similar to a greenhouse set in the garden. Once a tyres shop, now it's been changed into a functional and pleasant environment that lights up and shines as a jewel when the night comes.

DAL 2006 AD OGGI, LA SCELTA STRATEGICA
DI PUNTARE SUL DESIGN HA PORTATO
SIGNIFICATIVI RICONOSCIMENTI
INTERNAZIONALI CHE HANNO PREMIATO
L'INNOVAZIONE, LA RICERCA
E LA FRESCHEZZA DELLE PROPOSTE.

TT

Designed by Meneghello Paoletti Associati

Il lavabo sospeso T T disegnato da Meneghello Paoletti Associati riprende la caratteristica forma della trave a doppia T utilizzata in architettura per la costruzione di edifici, un riferimento all'idea che tutto il materiale esplica la sua resistenza sotto sollecitazione. Due ali a facce esterne parallele, sono collegate con un'anima perpendicolare: una faccia della T è agganciata a muro, mentre l'altra forma il bordo frontale del lavabo. Il lavabo è in Livingtec, cm 90x40. E' possibile posizionare il rubinetto a muro o in appoggio sul piano laterale. Il lavabo si completa con l'aggiunta di accessori posizionati sopra, sotto e frontalmente: ganci, barra porta asciugamani e tavoletta di legno che funziona come punto di appoggio spostabile sui bordi del lavabo.

The TT wall-hung washbasin, designed by Meneghello Paoletti Associati, reminds of the typical shape of the double-T beam used when building edifices and refers to the idea that any material shows its resistance under stress.

Two external and parallel wing-like shapes are connected by a vertical core: one face of the T is fixed to the wall while the other forms the frontal rim of this 90x40cm washbasin made in Livingtec.

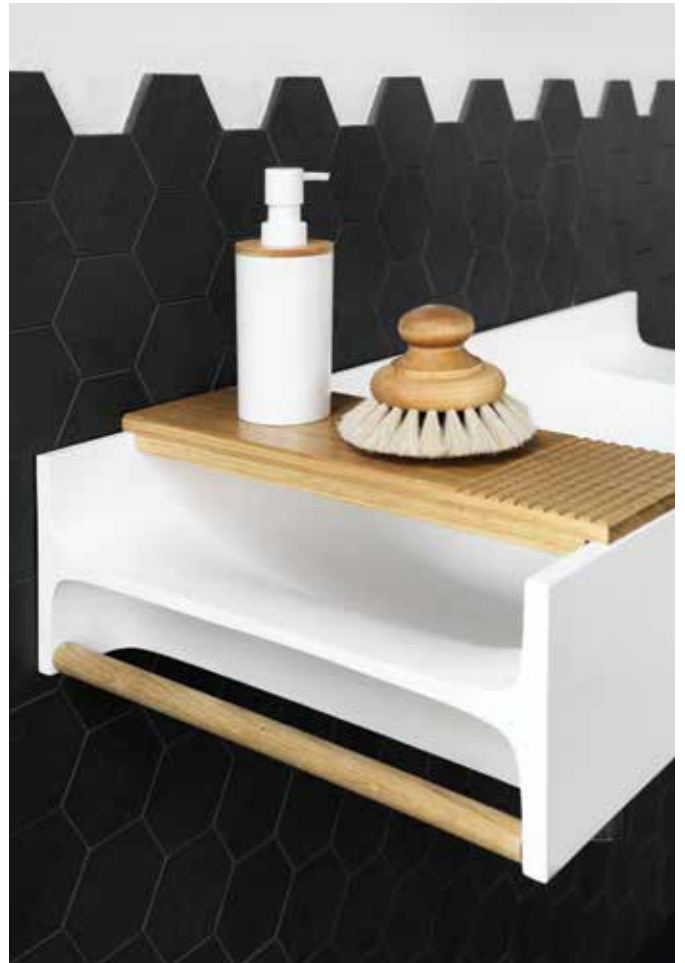

The faucet can be placed on the wall or on the side of the washbasin. Various accessories can be placed on top, underneath or frontally: hooks, a towel bar and a supporting wooden tray that can move along the rims.

SURF

Designed by Meneghello Paoelli Associati

Surf è il primo radiatore in ceramica, disegnato per The.Artceram da Meneghello Paoelli Associati, realizzato in collaborazione con l'azienda Ridea che ha condiviso il know-how per le resistenze interne del corpo riscaldante. Un corpo essenziale in ceramica con una superficie frontale morbida e fluida che può posizionarsi in verticale oppure in orizzontale, diventando una piccola mensola in ceramica. Il radiatore viene accompagnato da un sistema di accessori che completano la funzionalità: un gancio e una barra metallica per appendere accappatoio e salviette. Un corpo scaldante coordinato agli altri elementi ceramici della zona bagno, dalle forme contenute, che richiama l'idea di leggerezza e praticità.

Surf is the first ceramic radiator designed for The.ArtCeram by Meneghello Paoelli Associati realized in partnership with Ridea which shared their know-how concerning the internal resistance of the radiator.
Surf is characterized by an essential ceramic shell with soft and smooth lines and can be placed vertically and horizontally as a ceramic shelf.
Surf can be equipped with accessories that exalt its practicality: a hook and a metallic bar where towels and robes can be hanged.
Surf is a compact heating body that goes harmoniously with the other ceramic elements of the bathroom and recalls the idea of lightness and practicality.

IL CAVALLETTO

Designed by Meneghello Paoletti Associati

Artceram negli ultimi anni ha fatto della zona lavabo il suo focus strategico, sperimentando modi originali per integrare le varie funzioni che caratterizzano quest'area: lavabo, rubinetteria, piano d'appoggio, contenitori, mensole, luce, specchio. Con Il Cavalletto assistiamo ad una piccola rivoluzione del mobile bagno. Fino ad ora il piano del lavabo è sempre stato concepito come un'area bidimensionale, base d'appoggio per lavabo, rubinetti ed accessori vari.

Il Cavalletto mette in linea tutti gli elementi, disponendoli in fila invz su di una barra di ceramica sorretta da due cavalletti di legno.

Artceram always experiments original solutions to expand the functionality of the washbasin area, mixing in different ways the different functions (basin, taps and fittings, shelves, towel rails, light, mirror, ...). Il Cavalletto represents a small revolution in bathroom furniture, expanding the functionality of bathroom furnishing elements, re-arranging them into a small space. All the elements are aligned along a 16 cm deep ceramic bar supported by two wooden trestles. The elements can be moved along this line. The washbasin is placed at the center, with the faucet that can be placed on the right or the left (or on the wall).

On the ends of the bar a small ceramic shelf and Flos Kelvin Led lamp - with adjustable head and the switch located on it - can be mounted.

SOTTO SOPRA+UP

Designed by Meneghello Paoletti Associati

Sotto Sopra risponde alla necessità di reinterpretare in modo nuovo l'elemento accessorio nella zona bagno, pensato non più come elemento funzionale singolo ma come un unico modulo strutturato multifunzionale, complementare alla ceramica sanitaria e accessibile a seconda delle esigenze degli ambienti in cui è integrato. Sotto Sopra si presenta come una barra ceramica multifunzionale da cui escono in modo fluido gli accessori. All'interno dell'ambiente bagno una o più barre in ceramica possono essere posizionate singolarmente, affiancate oppure sovrapposte in un'unica colonna con una disposizione particolarmente utile nel caso di bagni di piccole dimensioni. Nascono diverse possibilità di combinazione a seconda che le funzioni accessorie siano legate all'utilizzo dei lavabi, dei sanitari, della doccia oppure siano inseriti come semplici elementi decorativi del bagno. La barra di ceramica può essere accessoriata con portaserviette, dispenser per sapone, sede per phon o profumatori per ambiente, portavasi, portarotolo, portascope.

Sotto Sopra responds to the need to reinterpret the accessory element in the bathroom area. It has been conceived and designed not as a single functional element but as a single multi-functional structured module, complementary to sanitary wares and accessorized according to the needs of the environment in which it is integrated. Sotto Sopra is a multi-functional ceramic bar from where accessories smoothly come out. One or more bars can be positioned individually, side by side or one on top of the other to form a column, this last option being particularly useful for bathrooms of small dimensions. Sotto Sopra can be differently combined depending on how its functions relate to the use of washbasins, sanitary wares, shower or if used as simple decorative elements in the bathroom. The bar can be equipped with ceramic towel bars, soap dispensers, as a place for hair dryer or fragrances to infuse your surroundings, pot holders, toilet roll holders and toilet brush holders.

NAKED SYSTEM

Designed by Meneghello Paoletti Associati

Naked é un lavabo a bordo fino che nasce come estremizzazione e virtuosismo nella lavorazione della ceramica. Un lavabo utilizzato come vasca di grandi dimensioni in cui tutta l'ampia superficie diventa catino contenitivo.

Per Naked sono stati creati Slitta e Trapezio due mobili bagno "nudi", che lasciano a vista il telaio realizzato in legno rovere, rovere sbiancato e wengé. Un progetto che richiama la linearità, l'eleganza e l'essenzialità del design scandinavo. I due telai hanno un ampio piano di appoggio e una barra portasalviette in legno.

Naked is a washbasin which represents an extreme result in the ceramic process, thanks to its thin rim. It can be used as a sink of wide dimensions for its large basin.

For this item, we have created two "naked" bathroom furnitures Slitta and Trapezio with an "open" frame in oak, whitewash oak and wengé. A project which reminds the essentiality, the elegance and the simplicity of the Scandinavian design. The two frames have a wide shelf and a wooden towel bar.

BACK

Designed by Meneghello Paoelli Associati

Compatto e di profondità davvero minima, il nuovo lavabo Back é presentato nelle due versioni da parete, a terra o sospesa. La rubinetteria può essere a parete oppure appoggiata a destra del lavabo. Realizzato in Livingtec, nelle finiture bianca lucida o bicolore bianco e nero.

Compact with a very little depth from the wall, the new washbasin Back is presented in two versions: back to wall or wall-hung. The faucet can be placed on the wall or to the right of the basin. Back is made of Livingtec, available in white or in black&white gloss finish.

CUP

Designed by Meneghello Paoletti Associati

Una citazione leggera, il lavabo centrostanza Cup é un ironico omaggio alla tazzina da caffè, icona italiana per eccellenza, espressione di un quotidiano normale dove il manico della tazza diventa un “utile” porta salviette.

Un chiaro riferimento alla Pop Art che attinge provocatoriamente i propri soggetti dall’universo dell’uso e del consumismo quotidiano. Realizzato in Livingtec, nelle finiture bianca lucida o bicolore bianco&nero.

A light citation, Cup is a freestanding washbasin, an ironic tribute to the coffee cup, the Italian icon for excellence. The handle of the cup becomes a “useful” towel rail.

A clear allusion to Pop Art, which taps into its provocative subject from the universe of consumerism. Cup is made of Livingtec in white colour, or in black and white gloss finish.

HALL

Designed by Meneghello Paoletti Associati

Hall: non un lavabo centrostanza, ma una reinterpretazione del lavabo a colonna.

Nel proprio ventre un foro morbido e sinuoso scalfisce la matericità della ceramica, violata e risucchiata al proprio interno come una grossa goccia d'acqua che si infrange su di una superficie. Hall si appoggia a muro nascondendo i flessibili dell'acqua e lo scarico e mantenendo così una perfetta pulizia formale.

Hall: is not a freestanding washbasin, but a reinterpretation of the column washbasin. In its belly, a soft and sinuous hole scratches the materiality of ceramics, violated and sucked by an invisible big drop of water that breaks on a surface. Hall is mounted on the wall, hides the flex and the waste pipe so well that its formal aesthetics remains intact.

SHARP

Designed by Meneghello Paoletti Associati

Sharp nasce come elemento architettonico, una colonna estrusa, messa in torsione e sfaccettata. È un progetto formalmente rigoroso, freddo e tagliente.

La rotazione del catino rispetto alla base crea una rete di punti attraverso i quali vengono costruite le otto superfici triangolari che compongono la struttura.

Sharp può essere utilizzato sia freestanding, con scarico a terra che appoggiato a parete, con scarico a muro. Il lavabo è infatti studiato in modo tale che la sfaccettatura posteriore sia complanare alla parete, consentendo così il perfetto accoppiamento lavabo-parete. La vasca completa le sfaccettature delle pareti, facendole convogliare verso lo scarico dell'acqua.

Sharp è realizzato in Livingtec nella finitura bianca lucida.

Sharp is an architectural element, an extruded column that makes a twist and splits into faces. It is a rigorous, cold and sharp washbasin. The rotation of the basin from the base creates a network of points through which the eight triangular surfaces that compose the structure are created. Sharp may be used free-standing, with the drain on the ground, and back to wall, with the drain on the wall. The design of the basin allows the back face to be parallel to the wall.

Sharp is made of Livingtec available in white gloss finish.

WALL SYSTEM

Designed by Carlo Urbinati

Un sistema di lavabi dove l'acqua che scorre diventa il fulcro del progetto.

Declinato in tre modelli, offre soluzioni diverse giocando sui materiali e sulle dimensioni. L'appoggio è sempre a parete, il sifone rimane nascosto, la mensola accoglie il lavabo che è a semicerchio nelle due versioni in ceramica, concavo e ultrapiatto nella versione in vetro.

Various basins where "flowing water" is the heart of the project.

Three models that offer various solutions by playing with materials and dimensions.

These washbasins are – as for the others in this series – mounted on the wall, the siphon cannot be seen, the back part holds a semicircular basin in the ceramic versions while it holds a hollow and ultrathin basin in the glass version.

POSTIT

Designed by Meneghello Paoletti Associati

La collezione Postit é caratterizzata dal materiale, la ceramica, e dal mimetismo delle linee con le pareti: una parte dell'accessorio sembra infatti scomparire nel muro lasciando la sensazione che sia incassata al suo interno. Gli accessori non sono piú oramai un semplice complemento "accessorio" da aggiungere alla fine, ma sempre piú sono parte integrante del progetto, inglobati perfettamente con la struttura architettonica del bagno.

The collection is characterized by ceramics and mimetic lines with respect to the wall: one part of the accessory seems to disappear into the wall leaving the impression that it is dropped in it. The accessories are no more considered as simple "incidental" items but they become more and more the core of the project, blending harmoniously with the architectural structure of the bathroom.

GIRINI

Designed by Meneghello Paoletti Associati

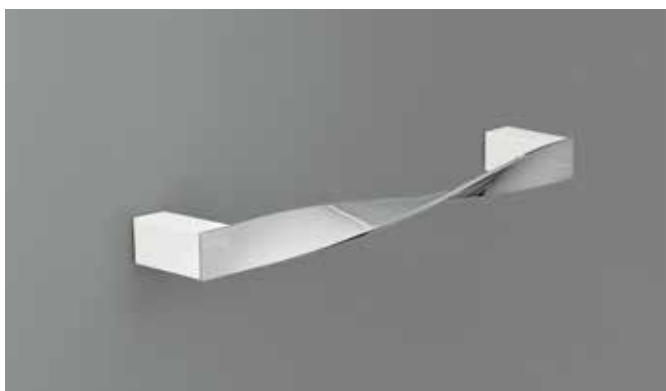

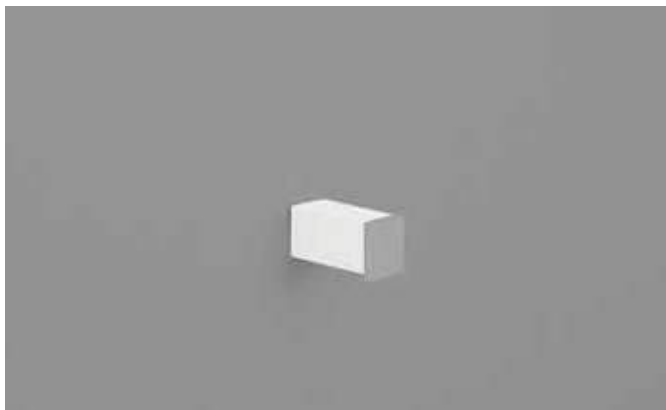

Una tipica lavorazione meccanica, la torsione, conferisce alla collezione Girini una dinamicità unica carica di significati e di valori che ricordano il mondo industriale. La base di supporto degli accessori è in Livingtec e le barre in acciaio cromato.

A typical mechanical torsion gives the collection Girini a unique dynamism full of meanings and values that recall the industrial world.
The support base of the accessories is in Livingtec while the bars in chromed steel.
