ARCHÈ

ANTICHI REASSI

Azienda Agricola “Reassi” extends over a surface area of about 6 hectares, totally devoted to organic vineyards. Ours is a family business, where the favourable position of our land, together with soils of volcanic origin, guarantee that we can grow vines with optimal results. It is for this reason that we have been transforming grapes into wine for more than one hundred years, reinforced by modern technology while maintaining respect for ancient traditions, in search of the ultimate expression of the terroir.

Our company philosophy reflects the special characteristics of the land, concentrating predominately on autochthonous vines. It is our goal to exalt the characteristics and potential of these varieties, while embracing the knowledge of the past.

Every activity in the vineyard and in the winery is focused on obtaining products that reflect our love of the Euganei Hills and demonstrate the personality and typicity that each variety derives from our unique volcanic soils.

ANTICHI REASSI
